Application & Removal:
Signs Express Newcastle used ImagePerfect 2555 StreetApp to create a pride flag for a zebra crossing for the Northern Pride event. The material was installed for two days before the removal process was undertaken. Adam Greaves, Managing Director of Signs Express Newcastle, commented, “we found the material excellent to work with and by using the setting of 12 passes it gave us such an intense colour, it doesn’t look real! We will definitely be using it again.”
